

# make your teddy bear a bracelet

Follow the steps below to make a bracelet for your favorite stuffed pal!  
Color in the bear for extra playtime fun.

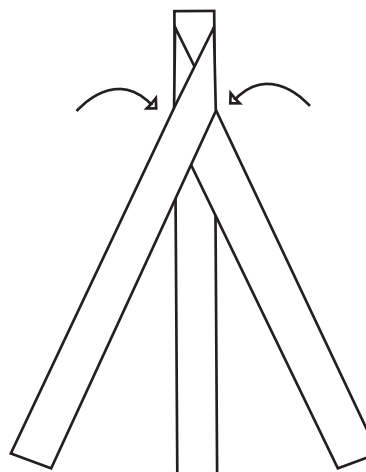

1.

Color the three strips at the bottom of this page. Cut each one along the lines and tape them together as shown here

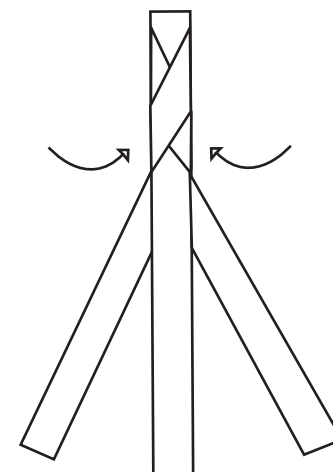

2.

Fold the outer strips over the center strip, then fold the outer strips under the center strip to create a braid.

3.

Repeat Step 2 until you're at the end. Tape the bottom so there are no loose ends. Wrap the bracelet around your teddy's wrist and tape ends.

Parents, use #sharetheplay on social media so we can see how they did!
